

Implementing AMATYC's Beyond Crossroads

Friday, March 24, 12:00-4:00 PM EST

Registration is free, but limited to the first 30 responders

This Beyond Crossroads Workshop is designed to help you and your colleagues implement recommendations from the AMATYC standards document, Beyond Crossroads, in your classrooms. This four hour hands-on, interactive workshop will provide an overview of the four topics: Teaching problem solving, Using group methods, Building a department team, and Assessing student learning. Join us for a presentation of these topics combined with lively discussion with other math teachers.
